

Matthew Saul

2032 Eastern Ave NE • Grand Rapids, MI 49525 • (616) 558-6429 • matt.saul@gmail.com

WHEATON COLLEGE

Wheaton, IL

Bachelor of Science, May, 2002

September 1998 - May 2000

- Major in Computer Science
- Completed rigorous programming coursework using PHP, JAVA and C++
- GPA: 3.17/4.0

POSITIONS

HOTELS ETC

Loganville, GA

2007, 2010 – Present

Technologies Used: PHP, MySQL, Flash, Fireworks

- Designed and coded company and distributor websites that did over a million dollars in sales volume
- Did a redesign of the site using a modified Wordpress theme for the front end and Codeigniter PHP MVC Framework for the back end
- Wrote back-end scripts to import email addresses from files, parse RSS Feeds, and send out HTML emails to our various lists
- Troubleshoot customer support issues for members and distributors
- Prepared Flash video and animations for marketing purposes

TRADITION CREEK

Inver Grove Heights, MN

March 2008 – Present

Technologies Used: PHP, MySQL, Zen Cart, Flash, Fireworks

- Created an online outdoor store that has done over twenty five thousand dollars in sales volume and currently has a Google page rank of five out of ten
- Marketed store's products via Facebook, shopping aggregation engines, and newsletters
- Managed product addition/removal and create animated banners carefully tracked for sales via Google Analytics

GETZINGER DESIGN

Boston, MI

July 2006 – March 2008

Technologies Used: PHP, MySQL, Flash, Fireworks, Photoshop

- Sliced up Photoshop files and turned them into websites with graphic-heavy layouts making use of CSS to get everything looking just like the original
- Took over a PHP codebase for a forthcoming dotcom, fixing some of the aesthetic and code bugs

WHEATON COLLEGE

Wheaton, IL

Junior Webmaster

May 2002 – May 2004

Technologies Used: Dreamweaver, Photoshop, PHP, PERL

- Hand-coded an HTML and CSS departmental website template, envisioned by the Dean of Natural Sciences, which is still in wide use today.
- Converted Word files to HTML preserving their formatting
- Assisted professors and departmental staff with Dreamweaver issues
- Authored PERL and PHP scripts to handle mail forms.
- Created an PHP email search script that queried the school's LDAP directory
- Sliced up Photoshop PSD files and converted them into working websites with JavaScript rollover buttons

VOLUNTEER EXPERIENCE

Over the years I have volunteered my skills to charitable organizations.

- Since the second half of 2009 I have been doing an organizational outreach database project for the Red Cross of Greater Grand Rapids
- In 2006 I created an interactive social networking website in Drupal for Kids With Talent, a radio station in The Gambia for Develop Africa
- I also maintain the front-end design for the Chamber of Commerce for Individuals with Disabilities
